

Business

whitireiaweltec.ac.nz

'WelTec felt more achievable and was a much easier transition from school. My tutors took the time to get to know me and the smaller class sizes made it easier to make friends. It was just a really comfortable environment and I felt like I could ask questions and be myself.'

Jess

 Business

 Partnerships manager

Not long after starting university, Jess was losing her drive for study. She was struggling to build relationships with her teachers and classmates, so she decided to switch to WelTec.

She felt the difference immediately. Her tutors took the time to get to know her, and she was able to quickly make friends in the smaller classes. WelTec felt more achievable, and it was a much easier transition from school.

"It was just a really comfortable environment and I felt like I could ask questions and be myself."

During her studies, Jess was able to work on projects that replicated work in the real world.

"The industry projects were a big highlight for me. We had the opportunity to go out into the community, meet with clients and work on business projects with them. I learned about how to create and nurture relationships with stakeholders which is a key part of my job now."

Now Jess is a Partnerships Manager at Whānau Āwhina Plunket, where she gets to attend events around the country, pitch new partnership opportunities, and think of new and creative ways

to create mutually beneficial partnerships with organisations across Aotearoa.

One of the exciting initiatives she's working on is called 'Dunk It for Plunket', a partnership with Arnott's that asks New Zealanders to host a morning tea and 'Dunk It For Plunket'. All the money raised helps Plunket provide critical services to families and help tamariki get the best start to life.

To anyone thinking of studying business, Jess says, "You don't have to know what career or job you want before you start studying; business skills are versatile and needed in every industry."

Check out Jess's full story on our website. Follow the QR code below.

Bachelor of Applied Business Management

 Level 7
 3 years, full-time (part-time options available)
 \$6,082 year 1 (indicative for 2023 intake)
