'You get to meet the most incredible, creative people.'

Serena

Makeup Artistry

Makeup & Special Effects Artist

Serena had never thought of makeup as the career for her until she went to a WelTec open day. One of the special effects tutors created a prosthetic wound on her forehead, and Serena managed to convince all her friends it was real. "Seeing those skills modelled in front of me made my decision to study at WelTec easy."

Once at WelTec, she was met with passionate tutors who were always willing to engage and answer questions. Serena found it easy to get along with them, which made time in class always enjoyable.

Serena studied at the WelTec's Wellington City campus - Te Kāhui Auaha, a creative campus filled with students studying dance, music, performing arts and more. This offered opportunities to collaborate with other programmes, like film, where Serena could practice her skills on aspiring actors.

Serena's now a freelance Makeup and Special Effects Artist, keeping herself busy with all sorts of projects, from films, commercials, weddings, and even working with the New Zealand Military.

Serena's interest in makeup started with her love of film, where she noticed how important a role

makeup played. Being able to work on a film set and meet the incredible people working on them feels like a dream come true for her. "Some of the projects I have worked on include Avatar, Mr Corman, a Keith Urban music video, Antipodes, NZ series The Māori Sidesteps, World of Wearable Art, and so many more!"

Serena's work has taken her to some unexpected places, like training days for the New Zealand Military. She helps to simulate an environment that could occur in real-life deployment, by adding prosthetic wounds to actors.

Serena credits WelTec for getting her to where she is today. The skills she learnt, combined with the experience and connections of her tutors helped her crack into the industry and land her first job.
