

Paramedicine

whitireiaweltec.ac.nz

'The tutors made me feel comfortable straight away.'

Rosie

 Bachelor of Health Science (Paramedic)

 Wellington Free Ambulance Paramedic

The moment she read into it; Rosie was hooked on the idea of paramedicine.

Previously a visual arts student, Rosie returned from overseas travel not sure what her next step was. It wasn't until she came across the Whitireia Bachelor of Health Science (Paramedic) online did she consider a new career.

Having a degree under her belt already, Rosie absorbed as much as she could during her studies, forming strong relationships with her fellow students and tutors. Her tutors Ken and Josie were very passionate and patient people who inspired her during the programme. The best part of the course was the mix of theory and practical work in the ambulance – the mix of both is perfect, in her opinion.

Now working for Wellington Free Ambulance, Rosie's days are varied and jam-packed. The best part of her job is meeting people from all walks of life. She loves the excitement of not knowing what kind of day she's going to have – from attending accidents involving elderly, to helping people injured at sports games.

While the long hours can be challenging, the bonds she has formed with her colleagues make it all worthwhile for Rosie. The ability to share moving experiences with and lean on each other is what it's all about.

She may have stumbled upon paramedicine, but it's turned out to be Rosie's dream job. Her advice to people considering paramedicine as a career is to just keep going and keep learning. "It's not an easy job, but the rewards are worth it.."

Bachelor of Health Science (Paramedic) [For Working or Volunteering Paramedics]

📖	Level 7
🕒	Up to six years based on RPL
📅	17 Feb 2025 (Distance) 17 Feb 2025 (Distance) 17 Feb 2025 (Distance)
💰	\$7,450 per year (indicative for 2023 intake)
🌐	\$25,324* per year (indicative for 2023 intake)

Gain a qualification that integrates the knowledge and skills necessary for practice as a paramedic, while already working or volunteering in ambulance services and holding an Authority to Practice at EMT or above. You'll learn through online teaching and block courses, including simulation, and you will apply and advance your practice in your current workplace. Study part-time and have up to six years to complete the degree.

Flexible study options

The paramedic programmes at Whitireia provide flexible learning approaches to support the achievement of qualifications that meet student and ambulance service needs. This flexibility is achieved through the use of 'blended learning', i.e., a combination of traditional classroom (face to face) learning, online learning and block courses.

Programme length is based on individual credit recognition; the degree must be completed within six years. Online learning and campus-based courses throughout.

Programme outline

The Flexible Learning Strand (FLS)/Distance is designed for those already working or volunteering in ambulance services at a minimum of Emergency Medical Technician (EMT) level. The FLS provides the opportunity to study part-time with up to six years to complete the degree. The programme is delivered using a blended education model that integrates online

learning, block courses on campus, theory classes, simulation, and self-directed learning.

The Bachelor of Health Science (Paramedic) programme at Whitireia New Zealand (Whitireia) is run in conjunction with Wellington Free Ambulance (WFA). Graduates will have the knowledge and skills for practice as contemporary ambulance paramedics.

The Bachelor of Health Science (Paramedic) is approved by the New Zealand Qualifications Authority accredited by the Council of Ambulance Authorities.

Students applying for FLS need to go through a credit recognition process to determine their point of entry into the programme.
